

Need to know

OFFICE 365 GROUPS EXPIRATION POLICY (PREVIEW)

1

LICENSING

Azure Active Directory (AAD) Premium licenses are required and must be assigned to the administrator who configures the expiration policy and all members of the configured groups.

More Information: [Azure Active Directory Pricing](#)

2

"OFF" BY DEFAULT

Must be enabled by an administrator via the Azure Active Directory Admin Center. Can be enabled for "All" or "Selected" groups.

3

GROUP LIFETIME

Number of days before renewal can be set to 180, 365 or custom. Must be greater than "30".

4

NOTIFICATIONS

Notifications are sent to the group owner (or designated addresses if owner no longer exists) for renewal, 30, 15 and 1 day(s) from expiry.

5

DELETION

If not renewed, the group and content from Teams, Planner, Yammer, SharePoint, Outlook etc will be deleted.

6

RESTORE DELETED GROUPS

Deleted groups can be restored up to 30 days after deletion using the `Remove-AzureADMSDeletedDirectoryObject` cmdlet. Restore may take up to 24 hours.

More Information: [Restore a deleted Office 365 group in Azure Active Directory](#)

THAT'S IT
